Make TOMATOES Ripen 1 to 3 WEEKS EARLIER!

You'll pick RIPE tomatoes. WEEKS EARLIER than your neighbor! BIGGER yields of LARGER, MEATIER, more DELICIOUS TOMATOES. SEEDLESS TOMATOES, too!

NO-SEED HORMONE

Blossom-set

Easy To Use!

Just Spray!

STOPS BLOSSOM-DROP!

MAKES BLOSSOMS SET FRUIT!

Early tomato blossoms often drop off the plants without setting fruit if they are not pollinated properly, especially early in the season when nights are cool.

BLOSSOM-SET keeps blossoms on the plants; starts fruit development immediately by chemical stimulation of the flowers. These flowers set fruit instead of dropping off; develop into ripe tomatoes WEEKS EARLIER than unsprayed flowers. The tomatoes are larger, meatier, firmer, and better tasting. YOU'VE NEVER TASTED SUCH WONDERFUL TOMATOES; with better shape and color and more on each plant. Many are SEEDLESS because fruit is set chemically, not by pollen.

Convenient, easy way to spray. Just push the button and—WHOOSH—as easy as that! 12 oz. ready-to-use can (season's supply for 100 plants)..... only \$1.79
